Comments: (If possible, please reference section and/or page number in document if applicable.)

As a retired R.D. & working around radiation & other toxic chemicals for 40 yrs (Now have Cancer both breasts) & taught all the precautions handling these materials; esp. being responsible & accountable for use & disposal of this toxicity, or if non compliant could lose my job. I see that transporting (don't care how safe government say) nuclear waste would be irresponsible & no one accountable. I will not let it happen. I will sue the Senators that vote for this and have them come & clean up the mess with their own funds & not government funds!! The Senator from Illinois (Speaker of the house) is ganging up to drop everything in NV. who doesn't even have a nuclear plant & he has 13 Nuclear units from Zion Illinois North all the way south to the tip of Illinois, one large hazardous state, who invested in nuclear energy without being responsible & accountable about their waste (let the government pay.) NO WAY JOSE the corporations must pay up. I don't understand how govern't programs get away with responsibilities & accountability that they all preach they will do to get elected, and never, never, perform as such!!

* Please I beg of you do not move radioactive materials around our beautiful countryside. * Please Corinne Marco

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible, then secure with tape.
